Draw at 4. 30

The Village of Kentford – Did you know?

- There was a Packhorse bridge, the size of Moulton's, by the river on Bury Road (last remnants disappeared in the 1970's), one of only 2 in the whole of Suffolk.
- The famous actress and socialite, Lily Langtry, lived in the village in the 1880's. Gregarious, charitable, talented, independent, a true Victorian heroine.
- The remnants of a large Anglo-Saxon village was unearthed behind the church this year, including a large meeting hall.
- There were 2 pubs next door to each other, one owned by the husband and one by his wife. One was called the Cock, the other the Bull, so may just be a story!

In aid of Air Ambulance

Last year we raised nearly £1000. This year over £1000!

Come and help at the Kentford Pub Garden

Saturday morning – 10 am on the day
(5th August)

- Bring some cakes for the cake stall
- Bring a Tombola prize (smellies, food, bottles)
- Items for the Bric-a-Brac stall
- A little bit of help, setting up.

Or drop any offerings off at the pub.
